

Juané Schoeman

Honours Computer Science Student · Aspiring Software Developer · Python & SQL

jua.schoeman@gmail.com · linkedin.com/in/juanéschoeman-607a11254 · juaneschoeman.github.io/VirtualCV · Potchefstroom, South Africa

PROFILE

Detail-oriented Honours CS student at NWU with a passion for robust back-end systems and well-structured databases. Experienced in Python and SQL (MySQL & Oracle) as primary tools, with supporting skills in Java, C#, and .NET. Industry-tested through an Angular internship at DankoSpark, and currently conducting research on a weight- and BSA-based clinical dosage calculator where precision genuinely matters.

TECHNICAL SKILLS

Primary: Python · SQL (MySQL, Oracle)

Secondary: Java · C# · .NET · Angular

Tools & Practices: Git · Agile / Scrum · MATLAB · Image Processing · AI / Machine Learning fundamentals

Languages: English (fluent) · Afrikaans (native)

EXPERIENCE

Head Student Assistant

Feb 2026 – Present

[North-West University](#) · Potchefstroom

- Lead the student assistant team for the Introduction to Programming module, coordinating marking and student support sessions.
- Ensure consistency in assessments and provide guidance to students and junior assistants.

Student Assistant

Feb 2024 – Jun 2024

[North-West University](#) · Potchefstroom

- Marked practical assignments and assisted students with coursework for the Introduction to Programming module.
- Supervised tests and developed strong communication and assessment skills through direct student interaction.

Software Development Intern

Jun 2024 – Jul 2024

[DankoSpark](#) · Potchefstroom

- Contributed to front-end feature development using Angular within an agile team environment.
- Participated in daily stand-ups, version control workflows, and iterative delivery in a professional studio setting.

Pharmacy Student Intern

Aug 2022 – Oct 2022

[Mediclinic Potchefstroom](#) · Potchefstroom

- Filled prescriptions and managed medication stock under strict clinical protocols, developing precision and procedural discipline.
- Healthcare experience directly informs current Honours research into accurate clinical dosage calculations.

EDUCATION

BSc Honours, Computer Science & Information Technology

Feb 2026 – Dec 2026

[North-West University](#)

BSc, Information Technology

Feb 2023 – Dec 2025

[North-West University](#)

CURRENT RESEARCH

Developing a clinical dosage calculator that assists nurses and pharmacists in performing accurate weight- and BSA-based drug calculations, a domain where computational precision has direct patient safety implications.
